## Maths

|  | Reception | Year 1 | Year 2 |
| :---: | :---: | :---: | :---: |
|  | - Have a deep understanding of number to 10 , including the composition of each number. <br> - Subitise (recognise quantities without counting) up to 5 . <br> - Verbally count beyond 20, recognising the pattern of the counting system. <br> - Participate in small group, class and one-to-one discussions, offering their own ideas, using recently introduced vocabulary. | - Count to and across 100, forwards and backwards, beginning with 0 or 1 , or from any given number. <br> - Count, read and write numbers to 100 in numerals; count in multiples of twos, fives and tens. <br> - Given a number, identify one more and one less. <br> - Identify and represent numbers using objects and pictorial representations including the number line, and use the language of: equal to, more than, less than (fewer), most, least. <br> - Read and write numbers from 1 to 20 in numerals and words. | - Count in steps of 2,3, and 5 from 0, and in tens from any number, forward and backward. <br> - Recognise the place value of each digit in a twodigit number (tens, ones). <br> - Identify, represent and estimate numbers using different representations, including the number line. <br> - Compare and order numbers from 0 up to 100; use and = signs <br> - Read and write numbers to at least 100 in numerals and in words. <br> - Use place value and number facts to solve problems. |
|  | - Automatically recall (without reference to rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10 , including double facts. <br> - Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity. <br> - Explore and represent patterns within numbers up to 10 , including evens and odds, double facts and how quantities can be distributed evenly. | - Read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals ( $=$ ) signs. <br> - Represent and use number bonds and related subtraction facts within 20. <br> - Add and subtract one-digit and two-digit numbers to 20, including zero. <br> - Solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as $7=-9$. | - Solve problems with addition and subtraction: <br> - Using concrete objects and pictorial representations, including those involving numbers, quantities and measures. <br> - Applying their increasing knowledge of mental and written methods. <br> - Recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100. <br> - Add and subtract numbers using concrete objects, pictorial representations, and mentally, including: two-digit number and ones; a two-digit number and tens; two two-digit numbers; and adding three one-digit numbers. <br> - Show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot. <br> - Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems. |

|  | - Explore and represent patterns within numbers up to 10 , including evens and odds, double facts and how quantities can be distributed equally. | - Solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher. | - Recall and use multiplication and division facts for the 2,5 and 10 multiplication tables, including recognising odd and even numbers. <br> - Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication ( $\times$ ), division ( $\div$ ) and equals (=) signs. <br> - Show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot. <br> - Solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts. |
| :---: | :---: | :---: | :---: |
| 든 |  | - Recognise, find and name a half as one of two equal parts of an object, shape or quantity. <br> - Recognise, find and name a quarter as one of four equal parts of an object, shape or quantity. | - Recognise, find, name and write fractions $1 / 3, \frac{1}{4}$, $\frac{1}{2}$ and $\frac{3}{4}$ of a length, shape, set of objects or quantity. <br> - Write simple fractions for example, $\frac{1}{2}$ of $6=3$ and recognise the equivalence of $2 / 4$ and $\frac{1}{2}$. |
|  |  | - Compare, describe and solve practical problems for: lengths and heights; mass/weight; capacity and volume; time. <br> - Measure and begin to record the following: lengths and heights; mass/weight; capacity and volume; time (hours, minutes, seconds). <br> - Recognise and know the value of different denominations of coins and notes. <br> - Sequence events in chronological order using language. <br> - Recognise and use language relating to dates, including days of the week, weeks, months and years. <br> - Tell the time to the hour and half past the hour and draw the hands on a clock face to show these times. | - Choose and use appropriate standard units to estimate and measure length/height in any direction ( $\mathrm{m} / \mathrm{cm}$ ); mass ( $\mathrm{kg} / \mathrm{g}$ ); temperature $\left({ }^{\circ} \mathrm{C}\right)$; capacity (litres $/ \mathrm{ml}$ ) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels. <br> - Compare and order lengths, mass, volume/capacity and record the results using >, < and $=$. <br> - Recognise and use symbols for pounds ( $£$ ) and pence ( $p$ ); combine amounts to make a particular value. <br> - Find different combinations of coins that equal the same amounts of money. <br> - Solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change. <br> - Compare and sequence intervals of time. <br> - Tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times. <br> - Know the number of minutes in an hour and the number of hours in a day. |

|  |  | - Recognise and name common 2-D and 3-D shapes, including: 2-D shapes [for example, rectangles (including squares), circles and triangles] and 3-D shapes [for example, cuboids (including cubes), pyramids and spheres]. | - Identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line. <br> - Identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces. <br> - Identify 2-D shapes on the surface of 3-D shapes. <br> - Compare and sort common 2-D and 3-D shapes and everyday objects. |
| :---: | :---: | :---: | :---: |
|  |  | - Describe position, direction and movement, including whole, half, quarter and three quarter turns. | - Order and arrange combinations of mathematical objects in patterns and sequences. <br> - Use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anticlockwise). |
| $\begin{aligned} & \stackrel{y}{\hbar} \\ & \stackrel{y}{\omega} \\ & \vdots \\ & \vdots \\ & \vdots \end{aligned}$ |  |  | - Interpret and construct simple pictograms, tally charts, block diagrams and simple tables. <br> - Ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity. <br> - Ask and answer questions about totaling and comparing categorical data. |
|  | Active Maths - Maths of the Day <br> Maths week <br> Number day <br> Cooking in DT <br> Counting/measures in PE <br> Data collection/measures in Science | Active Maths - Maths of the Day <br> Maths week <br> Number day <br> Cooking in DT <br> Counting/measures in PE <br> Data collection/measures in Science | Active Maths - Maths of the Day <br> Maths week <br> Number day <br> Cooking in DT <br> Counting/measures in PE <br> Times tables rock stars <br> Data collection/measures in Science |

|  | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: |
|  | - Count from 0 in multiples of $4,8,50$ and 100; find 10 or 100 more or less than a given number. <br> - Recognise the place value of each digit in a three-digit number (hundreds, tens, ones). <br> - Compare and order numbers up to 1000. <br> - Identify, represent and estimate numbers using different representations. <br> - Read and write numbers up to 1000 in numerals and in words. <br> - Solve number problems and practical problems involving these ideas. | - Count in multiples of $6,7,9,25$ and 1000. <br> - Find 1000 more or less than a given number. <br> - Count backwards through zero to include negative numbers. <br> - Recognise the place value of each digit in a four-digit number (thousands, hundreds, tens, and ones). <br> - Order and compare numbers beyond 1000. <br> - Identify, represent and estimate numbers using different representations. <br> - Round any number to the nearest 10,100 or 1000. <br> - Solve number and practical problems that involve all of the above and with increasingly large positive numbers. <br> - Read Roman numerals to 100 (I to $C$ ) and know that over time, the numeral system changed to include the concept of zero and place value. | - Read, write, order and compare numbers to at least 1000000 and determine the value of each digit. <br> - Count forwards or backwards in steps of powers of 10 for any given number up to 1000000 . <br> - Interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero. <br> - Round any number up to 1000 000 to the nearest 10,100 , 1000, 10000 and 100000. <br> - Solve number problems and practical problems that involve all of the above. <br> - Read Roman numerals to 1000 $(M)$ and recognise years written in Roman numerals. | - Read, write, order and compare numbers up to 10000000 and determine the value of each digit. <br> - Round any whole number to a required degree of accuracy. <br> - Use negative numbers in context, and calculate intervals across zero. <br> - Solve number and practical problems that involve all of the above. |

- Add and subtract numbers mentally, including: a threedigit number and ones; a three-digit number and tens and a three-digit number and hundreds.
- Add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction.
- Estimate the answer to a calculation and use inverse operations to check answers.
- Solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction.
- Add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate.
- Estimate and use inverse operations to check answers to a calculation.
- Solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why.
- Add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction)
- Add and subtract numbers mentally with increasingly large numbers.
- Use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy.
- Solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why.
- Solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why.
- Solve problems involving addition, subtraction, multiplication and division.
- Use estimation to check answers to calculations and determine, in the context of a problem, an appropriate degree of accuracy
- Recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables.
- Write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods.
- Solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which $n$ objects are connected to m objects.
- Recall multiplication and division facts for multiplication tables up to $12 \times 12$.
- Use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1 ; dividing by 1; multiplying together three numbers.
- Recognise and use factor pairs and commutativity in mental calculations.
- Multiply two-digit and threedigit numbers by a one-digit number using formal written layout.
- Solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as $n$ objects are connected to $m$ objects.
- Identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers.
- Know and use the vocabulary of prime numbers, prime factors and composite (nonprime) numbers.
- Establish whether a number up to 100 is prime and recall prime numbers up to 19.
- Multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two-digit numbers.
- Multiply and divide numbers mentally drawing upon known facts.
- Divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context.
- Multiply and divide whole numbers and those involving decimals by 10,100 and 1000.
- Recognise and use square numbers and cube numbers, and the notation for squared (2) and cubed (3).
- Solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes.
- Solve problems involving addition subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign.
- Multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication.
- Divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context.
- Divide numbers up to 4 digits by a two-digit number using the formal written method of short division where appropriate, interpreting remainders according to the context.
- Perform mental calculations, including with mixed operations and large numbers.
- Identify common factors, common multiples and prime numbers.
- Use their knowledge of the order of operations to carry out calculations involving the four operations.

|  |  |  | Solve problems involving <br> multiplication and division, <br> including scaling by simple <br> fractions and problems involving <br> simple rates. |  |
| :--- | :--- | :--- | :--- | :--- |

- Count up and down in tenths; recognise that tenths arise from dividing an object into 10 equal parts and in dividing one-digit numbers or quantities by 10 .
- Recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators.
- Recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators.
- Recognise and show, using diagrams, equivalent fractions with small denominators. Add and subtract fractions with the same denominator within one whole.
- Compare and order unit fractions, and fractions with the same denominators.
- Solve problems that involve all of the above.
- Recognise and show, using diagrams, families of common equivalent fractions.
- Count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten.
- Solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number.
- Add and subtract fractions with the same denominator.
- Recognise and write decimal equivalents of any number of tenths or hundredths.
- Recognise and write decimal equivalents to $\frac{1}{4}, \frac{1}{2}$ and $3 / 4$.
- Find the effect of dividing a oneor two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths.
- Round decimals with one decimal place to the nearest whole number.
- Compare numbers with the same number of decimal places up to two decimal places.
- Solve simple measure and money problems involving fractions and decimals to two decimal places.
- Compare and order fractions whose denominators are all multiples of the same number.
- Identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths.
- Recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number.
- Add and subtract fractions with the same denominator and denominators that are multiples of the same number.
- Multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams.
- Read and write decimal numbers as fractions.
- Recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents.
- Round decimals with two decimal places to the nearest whole number and to one decimal place.
- Read, write, order and compare numbers with up to three decimal places.
- Solve problems involving number up to three decimal places.
- Recognise the per cent symbol (\%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100 , and as a decimal.
- Solve problems which require knowing percentage and decimal
- Use common factors to simplify fractions; use common multiples to express fractions in the same denomination.
- Compare and order fractions, including fractions > 1 .
- Add and subtract fractions with different denominators and mixed numbers, using the concept $\dagger$ of equivalent fractions.
- Multiply simple pairs of proper fractions, writing the answer in its simplest form.
- Divide proper fractions by whole numbers.
- Associate a fraction with division and calculate decimal fraction equivalents for a simple fraction.
- Identify the value of each digit in numbers given to three decimal places and multiply and divide numbers by 10,100 and 1000 giving answers up to three decimal places
- multiply one-digit numbers with up to two decimal places by whole numbers.
- Use written division methods in cases where the answer has up to two decimal places.
- Solve problems which require answers to be rounded to specified degrees of accuracy.
- Recall and use equivalences between simple fractions, decimals and percentages, including in different contexts.

|  |  |  | equivalents of $\frac{1}{2}, \frac{1}{4}, 1 / 5,2 / 5,4 / 5$ and those fractions with a denominator of a multiple of 10 or 25 . |  |
| :---: | :---: | :---: | :---: | :---: |
|  | - Measure, compare, add and subtract: lengths ( $\mathrm{m} / \mathrm{cm} / \mathrm{mm}$ ); mass ( $\mathrm{kg} / \mathrm{g}$ ); volume/capacity ( $1 / \mathrm{ml}$ ). <br> - Measure the perimeter of simple 2-D shapes. <br> - Add and subtract amounts of money to give change, using both $£$ and $p$ in practical contexts. <br> - Tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24hour clocks. <br> - Estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes and hours; use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight. <br> - Know the number of seconds in a minute and the number of days in each month, year and leap year. Compare durations of events. | - Convert between different units of measure. <br> - Measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres. <br> - Find the area of rectilinear shapes by counting squares. <br> - Estimate, compare and calculate different measures, including money in pounds and pence. <br> - Read, write and convert time between analogue and digital 12and 24-hour clocks. <br> - Solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days. | - Convert between different units of metric measure (for example, kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre). <br> - Understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints. <br> - Measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres. <br> - Calculate and compare the area of rectangles (including squares), and including using standard units, square centimetres (cm2) and square metres (m2) and estimate the area of irregular shapes. <br> - Estimate volume and capacity. <br> - Solve problems involving converting between units of time. <br> - Use all four operations to solve problems involving measure using decimal notation, including scaling. | - Solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate. <br> - Use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places. <br> - Convert between miles and kilometres. <br> - Recognise that shapes with the same areas can have different perimeters and vice versa. <br> - Recognise when it is possible to use formulae for area and volume of shapes. <br> - Calculate the area of parallelograms and triangles. <br> - Calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm3) and cubic metres (m3), and extending to other units [for example, mm3 and km3]. |

- Draw 2-D shapes and make 3 $D$ shapes using modelling materials; recognise 3-D shapes in different orientations and describe them.
- Recognise angles as a property of shape or a description of a turn.
- Identify right angles, recognise that two right angles make a half-turn three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle.
- Identify horizontal and vertical lines and pairs of perpendicular and parallel lines.
- 
- Compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes.
- Identify acute and obtuse angles and compare and order angles up to two right angles by size.
- Identify lines of symmetry in 2D shapes presented in different orientations.
- Complete a simple symmetric figure with respect to a specific line of symmetry.
- Identify 3-D shapes, including cubes and other cuboids, from 2D representations.
- Know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles.
- Draw given angles, and measure them in degrees.
- Identify: angles at a point and one whole turn (total 3600 ); angles at a point on a straight line and 21 a turn (total 1800 ) and other multiples of 90 .
- Use the properties of rectangles to deduce related facts and find missing lengths and angles.
- Distinguish between regular and irregular polygons based on reasoning about equal sides and angles.
- Describe positions on a 2-D grid as coordinates in the first quadrant.
- Describe movements between positions as translations of a given unit to the left/right and up/down.
- Plot specified points and draw sides to complete a given polygon.
- Interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs.
- Solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.

Draw 2-D shapes using given dimensions and angles.

- Recognise, describe and build simple 3-D shapes, including making nets.
- Compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles, quadrilaterals, and regular polygons.
- Illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius.
- Recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles.
- Describe positions on the full coordinate grid (all four quadrants).
- Draw and translate simple shapes on the coordinate plane, and reflect them in the axes.
- Interpret and construct pie charts and line graphs and use these to solve problems.
- Calculate and interpret the mean as an average.

|  |  |  |  | - Solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts. <br> - Solve problems involving the calculation of percentages and the use of percentages for comparison. <br> - Solve problems involving similar shapes where the scale factor is known or can be found. <br> - Solve problems involving unequal sharing and grouping using knowledge of fractions and multiples. |
| :---: | :---: | :---: | :---: | :---: |
| $\begin{aligned} & \text { oi } \\ & \text { Q } \\ & \text { K } \end{aligned}$ |  |  |  | - Use simple formulae. <br> - Generate and describe linear number sequences. <br> - Express missing number problems algebraically. <br> - Find pairs of numbers that satisfy an equation with two unknowns. <br> - Enumerate possibilities of combinations of two variables. |
|  | Active Maths - Maths of the Day <br> Times tables rock stars <br> Maths week <br> Number day <br> Cooking in DT <br> Counting/measures in PE <br> Data collection/measures in <br> Science | Active Maths - Maths of the Day <br> Times tables rock stars <br> Maths week <br> Number day <br> Cooking in DT <br> Counting/measures in PE <br> Data collection/measures in Science | Active Maths - Maths of the Day <br> Times tables rock stars <br> Maths week <br> Number day <br> Cooking in DT <br> Counting/measures in PE <br> Data collection/measures in Science | Active Maths - Maths of the Day <br> Times tables rock stars <br> Maths week <br> Number day <br> Cooking in DT <br> Counting/measures in PE <br> Data collection/measures in Science |
