

**Permission to attend local out of school activities and take photographs for school use**

On occasions we like to make use of our local area for school related activities, such as using Hoopers Field for sports or visiting the church. Rather than obtain your consent each time, we would be grateful if you could give your permission for these visits, subject to the appropriate levels of supervision being provided, and proper safety considerations being taken.

Sadly, these days we have to consider how images of our children are used. We believe that photographs and videos of the children undertaking activities at our school are a great source of pleasure and pride. We would be grateful if you could give your permission for us to continue to select images for inclusion in school publications, the press and on our website. This may involve your child's name and/or picture being used. We will of course continue to be sensitive as to how and where these are used.

.....

I give permission for my child ..... Class .....

to attend local out of school activities, subject to appropriate levels of supervision being provided and proper safety considerations being taken.

Signed ..... Date .....
